

Gabriel Bragion

Front-End Developer

Profile

I'm a Front-End developer passionate about creating interactive and functional interfaces. I am currently studying Systems Analysis and Development, with the aim of becoming a highly qualified Full-Stack developer. My enthusiasm for continuous learning motivates me to explore new technologies and innovative approaches.

In my projects, I use a solid foundation in JavaScript, HTML and CSS, making the most of their capabilities to deliver exceptional experiences to users. My skills include:

Mastery of HTML5 and CSS3 to create modern and responsive layouts and styles.

Experience in Vanilla JavaScript and frameworks such as React to develop dynamic and interactive features.

Proficiency in using Adobe XD and Figma to create high-fidelity prototypes and intuitive designs.
